To be honest , though this is the third episode of this beautiful gathering of professors in the faculty all together , we do feel the warmth and passion of the first meeting .Over the past year we enjoyed a fantastic meeting with a magnificent success . It was followed by a winter and spring workshops where the elite professors shared their assets of experiences with the dear junior colleagues in an extraordinary interactive fashion .

We prepared for you in the beautiful Hurghada a fantastic blend of clinical experience ,latest guidelines, cases scenarios ALL in a different NEW style to grant easy and interactive sessions.

The invited guest speakers are carefully selected to deliver state- of - the art in Pedatric medicine.
