

On behalf of the African Society of Organ Transplantation (ASOT), we are honored to welcome you to the 4th ASOT Congress, taking place from June 18–20, 2025, at the Tolip Golden Plaza Hotel, Cairo, Egypt.

This prestigious event is held under the esteemed patronage of His Excellency Prime Minister Dr. Mostafa Madbouly, and brings together distinguished professionals and leading experts from across Africa and beyond, to share the latest advancements in organ transplantation.

We are proud to host this congress in collaboration with several respected international and regional societies, including International Liver Transplantation Society (ILTS), Donation and Transplantation Institute (DTI), The Egyptian Society of Anesthesiology (ESAAC), Mayo Clinic, International Federation of Kidney Foundations (IFKF), African Nephrology Nurses Association (AFNNA), Arab Contractors Medical Center and The Cairo Kidney Center

Together, we aim to foster scientific exchange, build networks of cooperation, and advance the standards of transplantation across the continent.

We are delighted to welcome you to Cairo — a city rich in culture, history, and medical legacy — and we look forward to your active engagement in the sessions, discussions, and collaborative spirit of this unique gathering.

Your presence and contribution are highly valued and vital to the success of ASOT 2025.

Warm regards,
The ASOT 2025 Organizing Committee

ASOT President
Gamal Saadi
