Charting a Better Future in Oncology Care: The Launch of the 14th International Conference

It is my distinct honor to welcome you to the 14th International Conference of the Oncology Center at Mansoura University, where global leaders in thought and practice converge. This gathering is more than just a conference; it is a strategic meeting point to sustain the momentum of progress in the treatment and care of cancer patients. This conference is a testament to the continued dedication and progress in the field of oncology.

The Mansoura University Oncology Center is proud of its long-standing history as a center of excellence, driving the boundaries of research and innovation forward. This year, we look to deepen this commitment through our central theme: "Advances in Oncology: From Research to Clinical Practice".

An Enriching Agenda and Global Aspirations

Over the coming days, we will hear from a diverse range of speakers sharing the latest potentially game-changing research, alongside clinical insights that can be immediately applied to enhance patient outcomes. This is a unique opportunity to translate scientific potential into therapeutic reality.

We firmly believe that the key to making a real difference in the lives of cancer patients lies in three core pillars: Collaboration, Innovation, and Knowledge Exchange. Through constructive interaction among us, we can accelerate the pace of discoveries and achieve qualitative leaps in the standard of care provided, ultimately enhancing the quality of life for patients worldwide.

I encourage all of you to actively engage, ask questions, and connect with one another during this conference. Let us use this opportunity to inspire and motivate each other towards a future with better outcomes for cancer patients globally.

Prof. Waleed El-Nahas

President of The Conference

Organizing Comittee

Alphabetical Order

Dr. Ahmed Atef	Dr. Basma Atif	Dr. Maged Saffan
Dr. Ahmed Elalfy	Dr. Doaa Hassan	Dr. Manar Hamed
